### Shani Sade Sati: Peak Phase

This is the peak of Shani's Sade Sati. Generally this phase of Saturn is the most difficult one. Saturn transiting over natal Moon indicates health problems, character assassination, problems in relationship, mental afflictions, and sorrows. You will find it difficult to achieve success in this period. You may not get results of your hard work and feel restricted. Your constitution and immune system will not be strong. As first house is the house of health, you should start exercising and taking care of your health, otherwise you can be caught by chronic diseases. You will be spiritually inclined and will be attracted by intricacies of nature. Acceptance and doing basics right will sail you out of this period.

### Shani Sade Sati: Setting Phase

This is 'setting' period of Shani's Sade Sati. Saturn will be transiting in the 2nd house from the natal Moon, which indicates difficulty on financial and domestic front. You will start feeling slight relief after having two difficult phases of Sade Sati. Still, misunderstandings and financial stress can be seen during this period. Expenses may keep soaring high and you need to continue exercising control. Sudden financial losses and fear of theft is also a possibility. You may be pessimistic in thinking, you are advised to deal with matters enthusiastically. You will require paying good attention to family and personal front, otherwise those can also lead to a bigger problem. For students, education may be slightly affected and they will have to work harder to hold on to their existing level. Results will be slow and almost always with the delay. This is a period which indicates danger and apart from other things, you need to be careful while driving. If possible, stay away from non-veg and your drinking habits to keep Saturn happy. You will be able to sail through this period by intelligently handling your domestic and financial matters.

**Note:** Above predictions are of general nature and are based on general belief that Sade Sati is harmful. Truly speaking, we found that it is not always the case and we recommend reading this article on Sade Sati. Any conclusion based on Sade Sati alone is not correct and has good chances of failing. Certain factors like current running dasa and nature of Saturn also needs to be analyzed before we can conclude whether Sade Sati period will be malefic or benefic. You are advised not to take above forecasts seriously and in case of any doubt, consult a good astrologer.

## || Shadbala and Bhavabala – Strength Calculations ||

Shadbala is a method in Vedic astrology that gives quick insight in the strength of planets and the houses. Sanskrit means 'Six' and hence Shadbala consists of 6 different sources of strength. Shadbala calculation is a laborious process but thanks to computers one can get these strength calculations by just one mouse click. Shadbala method gives a value to each planet and each house. The more points a planet and a house gets in Shadbala the stronger it is.
